Subject: RE: IG and CFO positions

Derrick,
After seeking further counsel with the office of Admin Law, the FEC process is hereby further refined to the extent that HR will forward the applications of all applicants, both those deemed minimally qualified and those deemed not minimally qualified, to the selection panel for further review of minimal qualifications. Any applicants that are determined to be minimally qualified by the selection panel, after being designated as not minimally qualified by HR, will be re-instated as a minimally qualified candidate. In the future, notifications to the not minimally qualified applicants will be sent to the applicants after this review. Counsel agrees that this process is not in violation of any existing FEC or OPM regulation or policy, and is not inconsistent with any laws.

OGC,
Please send concurrence with this procedure, or amend it where necessary. Thank all
Ed
